Later Organizational Changes

50X1-HUM .

at the Frunzs Plant various changes were made in the Plant director DOBROY became sick in 1949 and died; his successor was GUSSJEV. The Commercial Director KRENIN resigned. KURJATSCHEV became Chief Engineer. Similarly, DOLENEY and RASSADIN also resigned. Other changes occurred as follows:

Chief of the Drafting and Design Bureau:

SELIMANOVSKI Laboratory I: Laboratory III: ARFANOV

LOSHCHILOV Laboratory IV: Laboratory VI: LEBEDEV

50X1-HUM

50X1-HUM

GORSCHKOY It never was clear

whether he or JURJATSCHEV

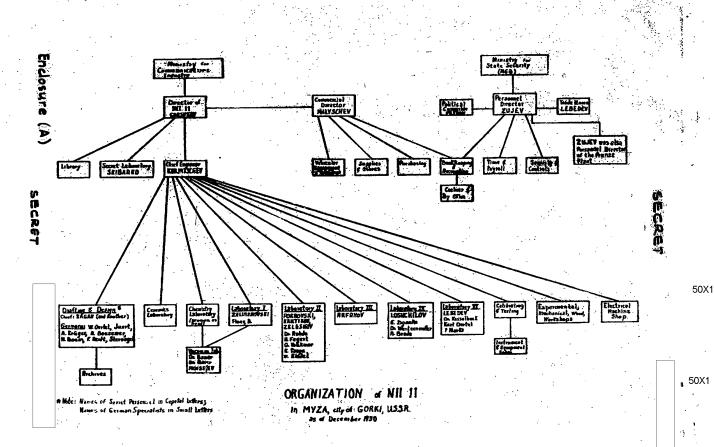

had the post of Chief Engineer.

Creation of Institute 11

In the summer of 1949 intention to turn the Design and Development section of the Frunze Plant into an independent institute. In the fall of 1949, the financial separation was under-taken. Beginning in 1 January 1950, the Institute carried the designation NIT 11. In March 1950, WORSCHKOV became the director protempore of the Institute while SKIBARKO became laboratory chief of an entirely separate part of the Institute to which none of us had aboess. Security measures within the Institute were continually increased in the fall of 1950. All workers were removed from Laboratories II and IV if they had less than three years of employment with the organization.
